

Hans Walser

Translationssymmetrische Figuren

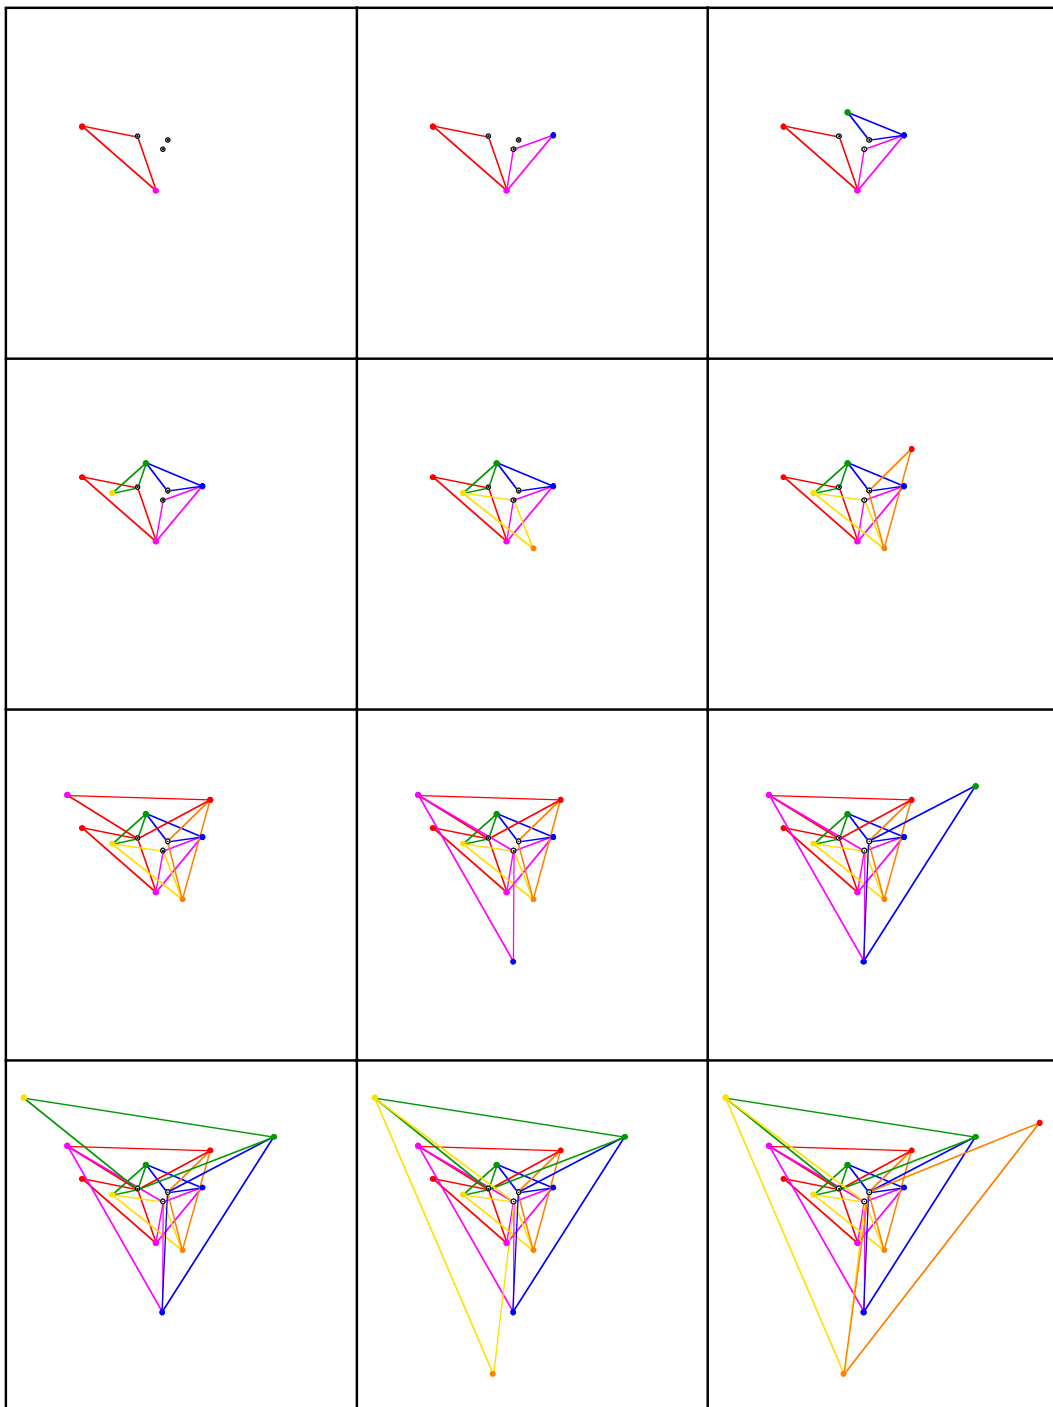

Die Bildsequenzen sind im Sinne einer „minimal art“ als Bilder ohne Worte konzipiert.

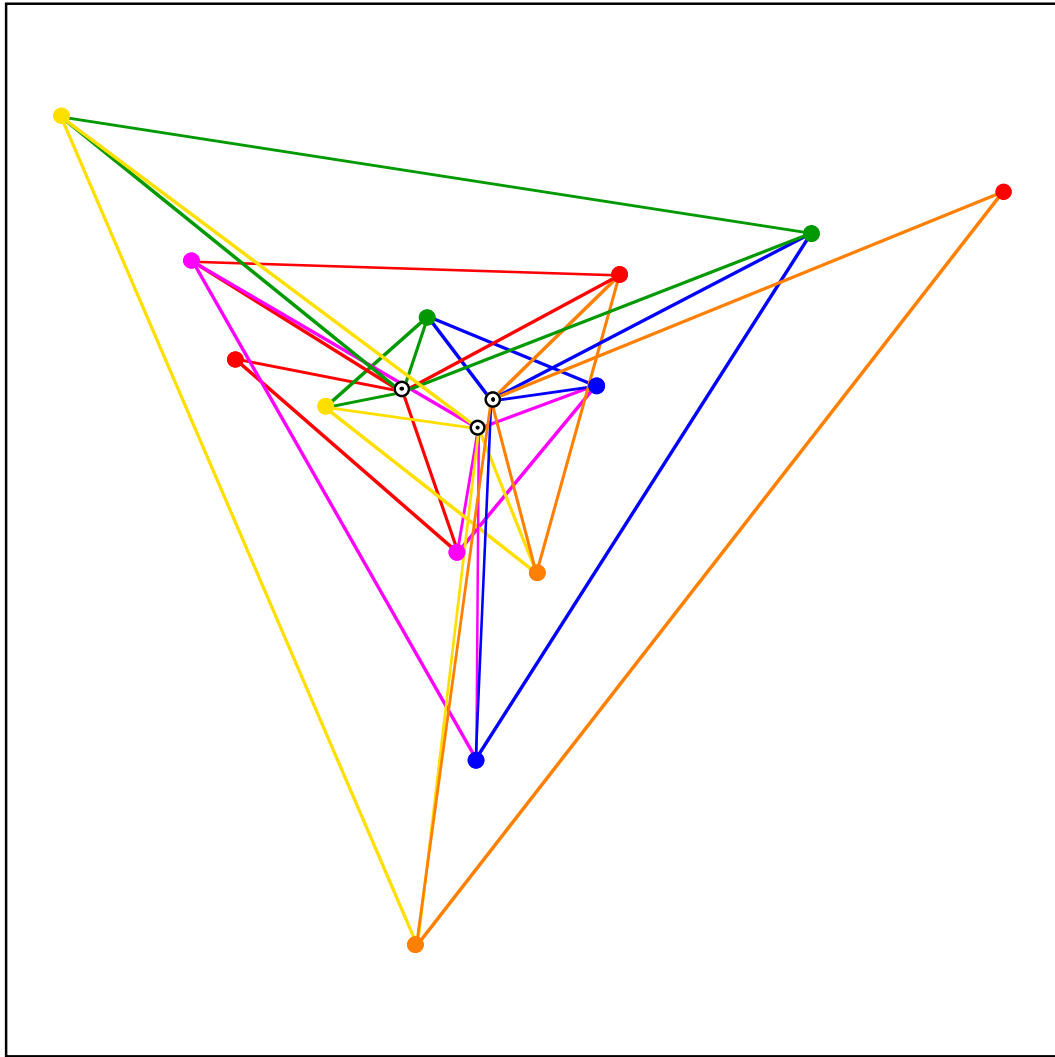

Gegebenenfalls finden sich unterhalb der Figur Literaturangaben oder Hinweise auf Anregungen, die zu diesen Figuren geführt haben.

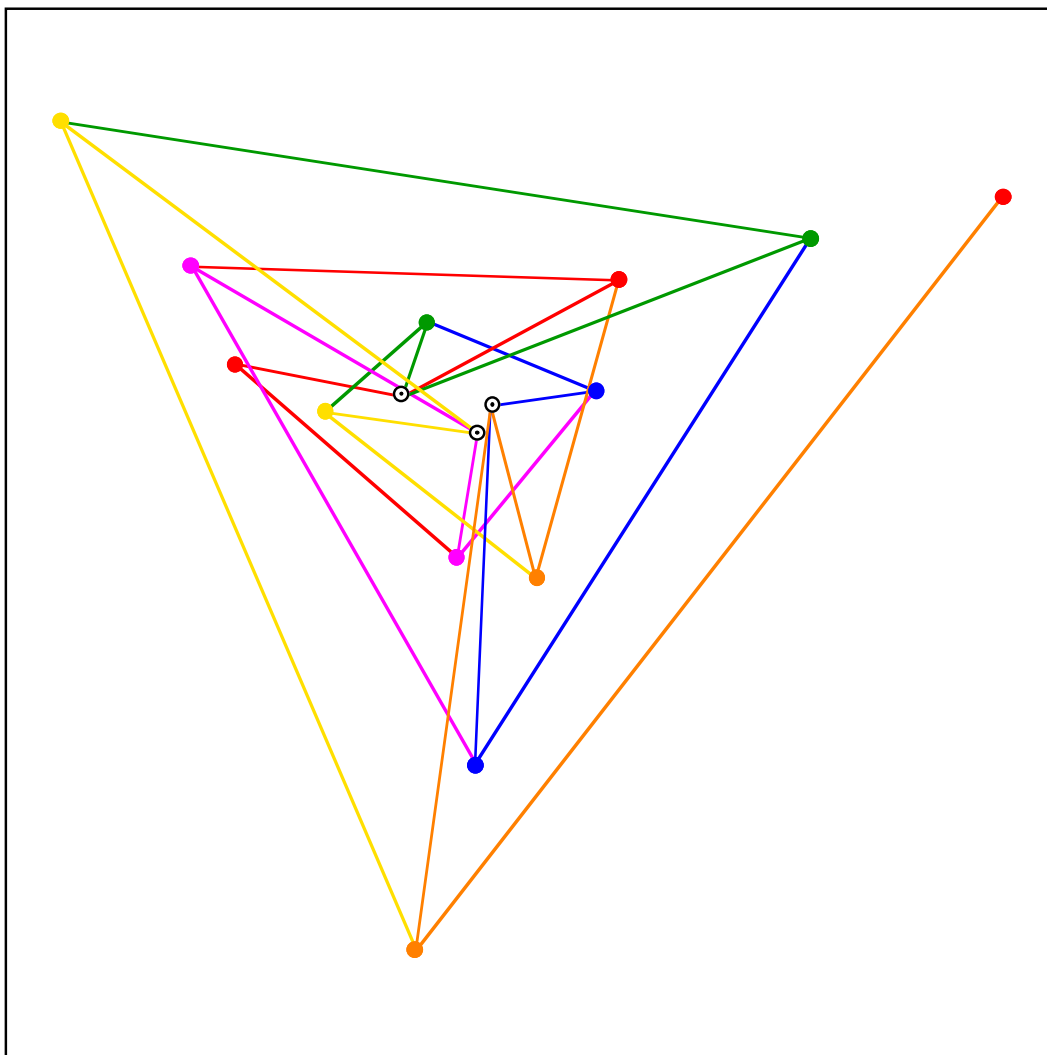

Letzte Änderung: 11. Juni 2010

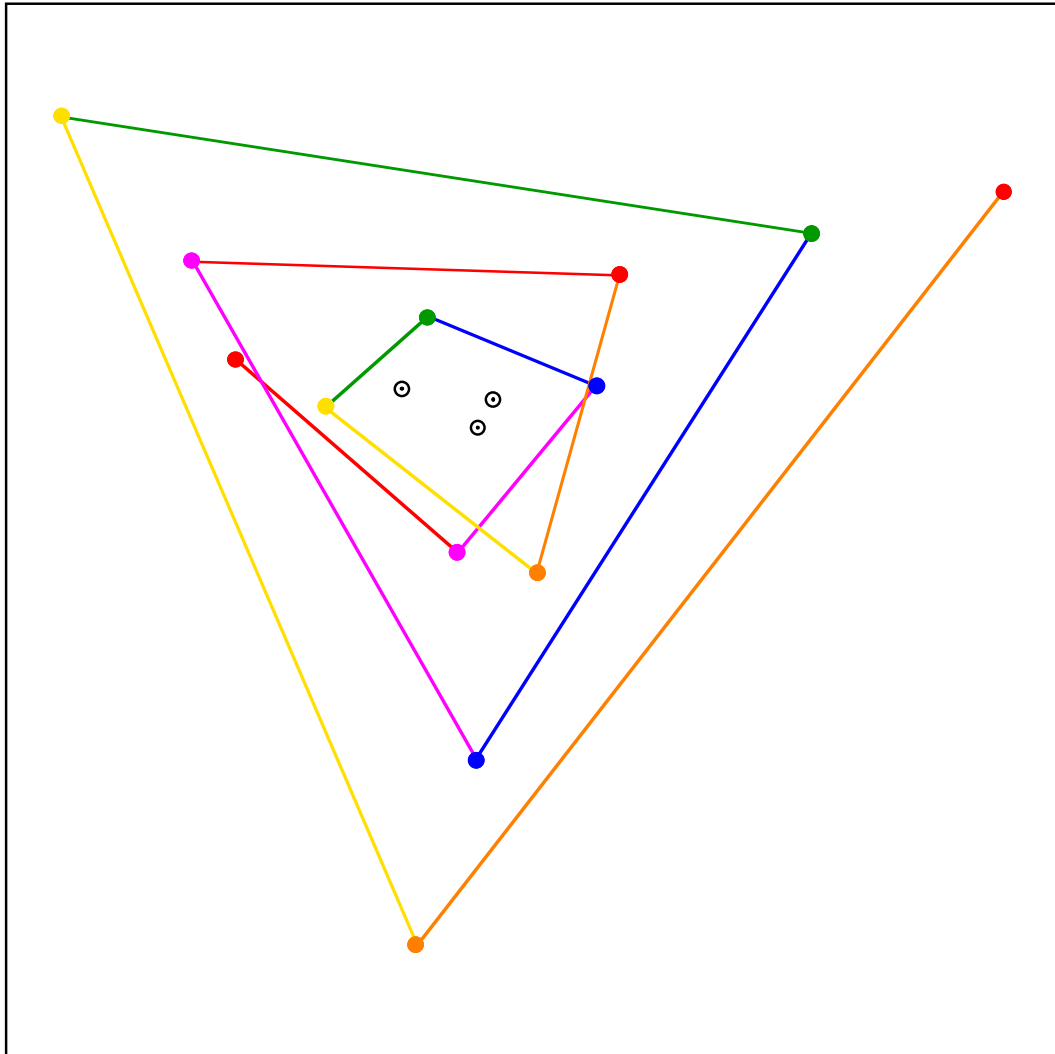

Translationsfigur 99.1

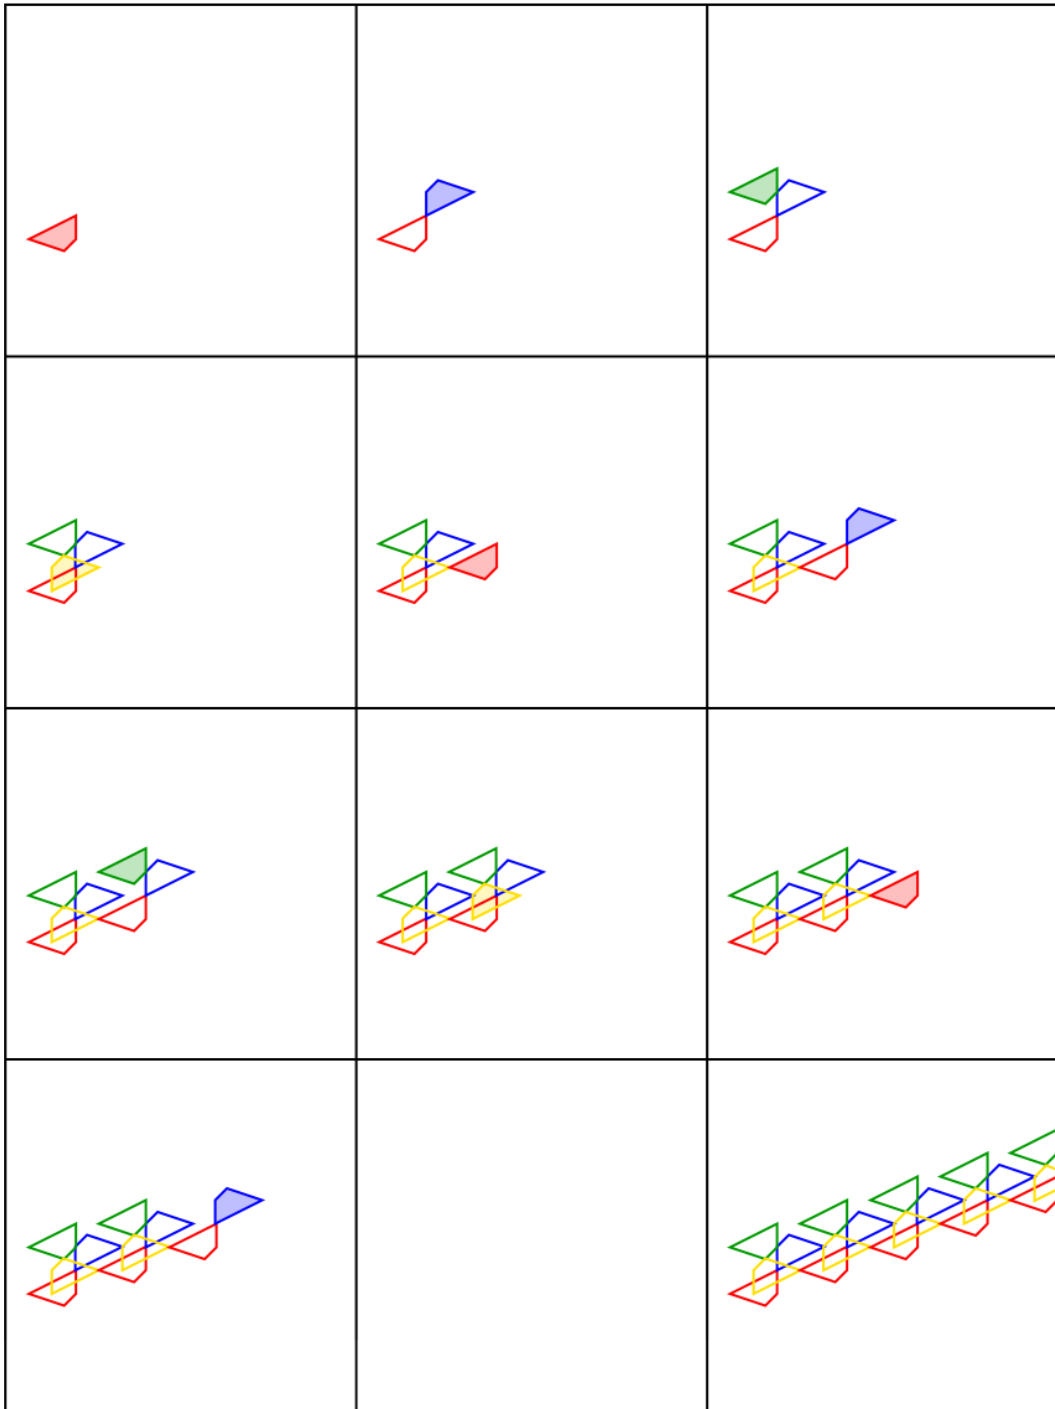

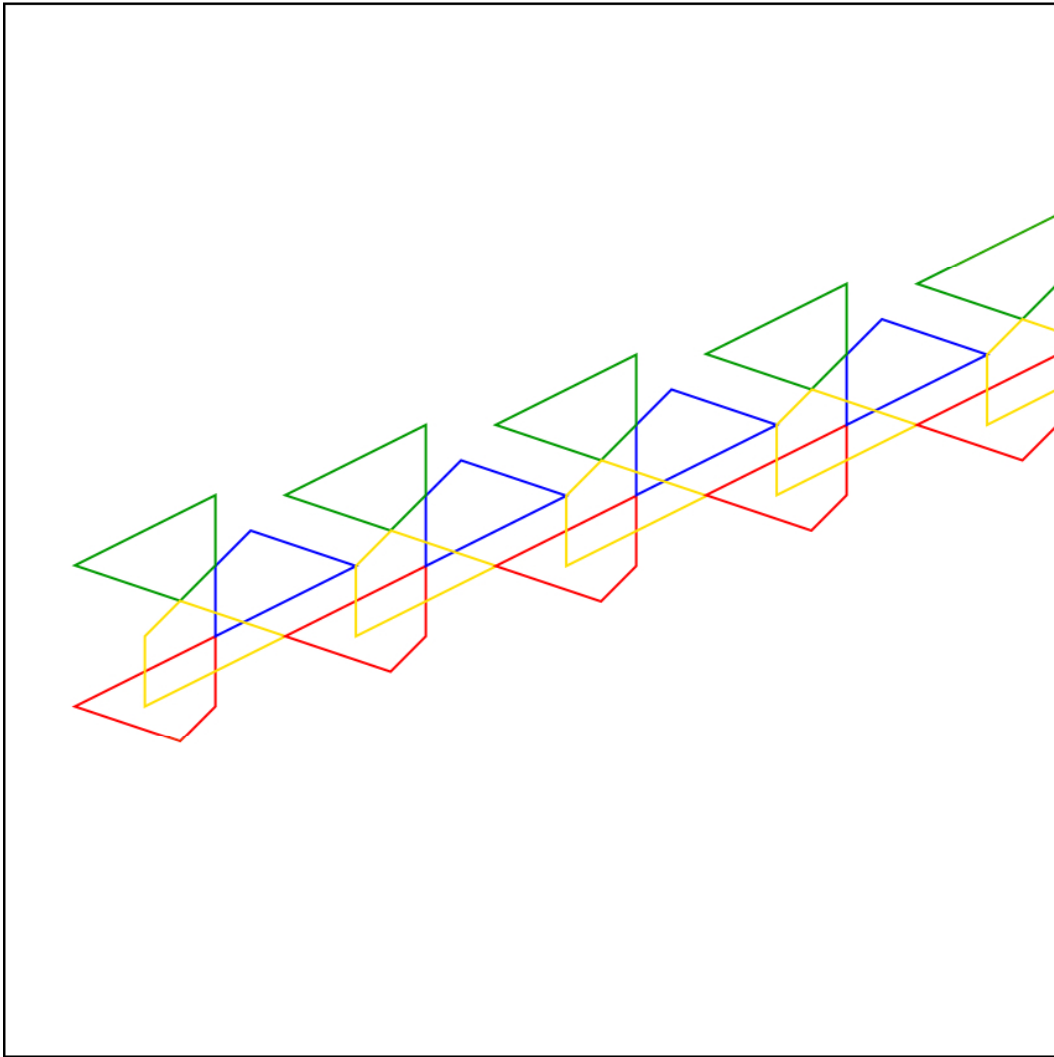

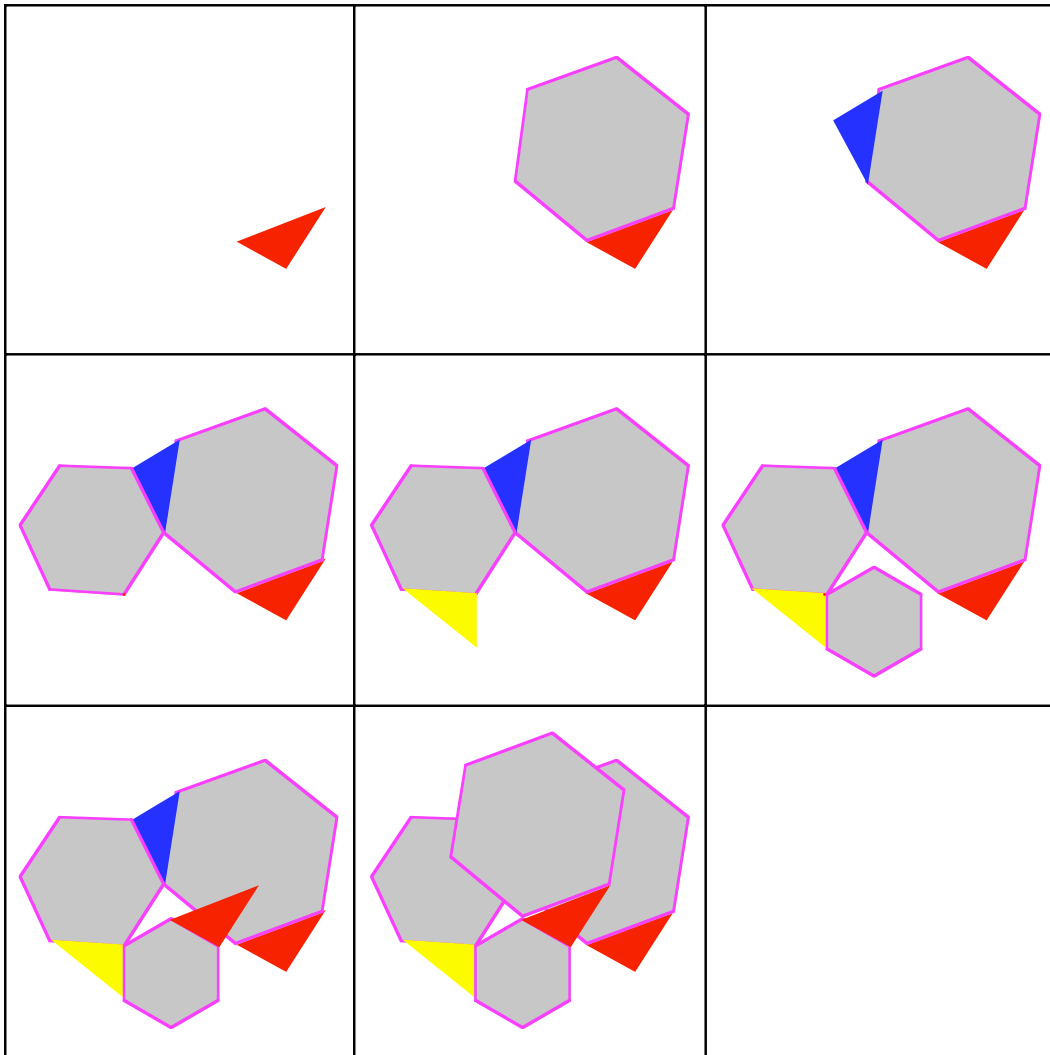

Translationsfigur 99.2

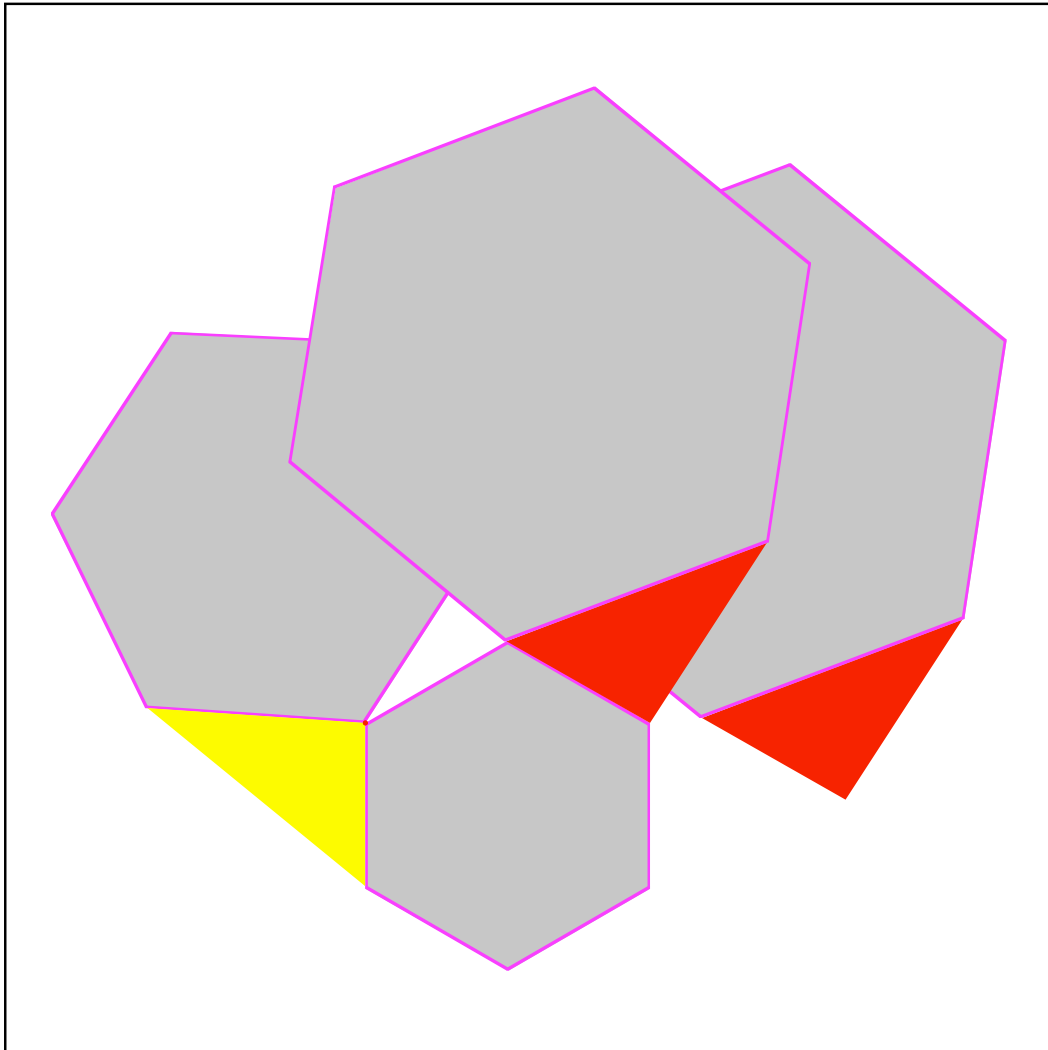

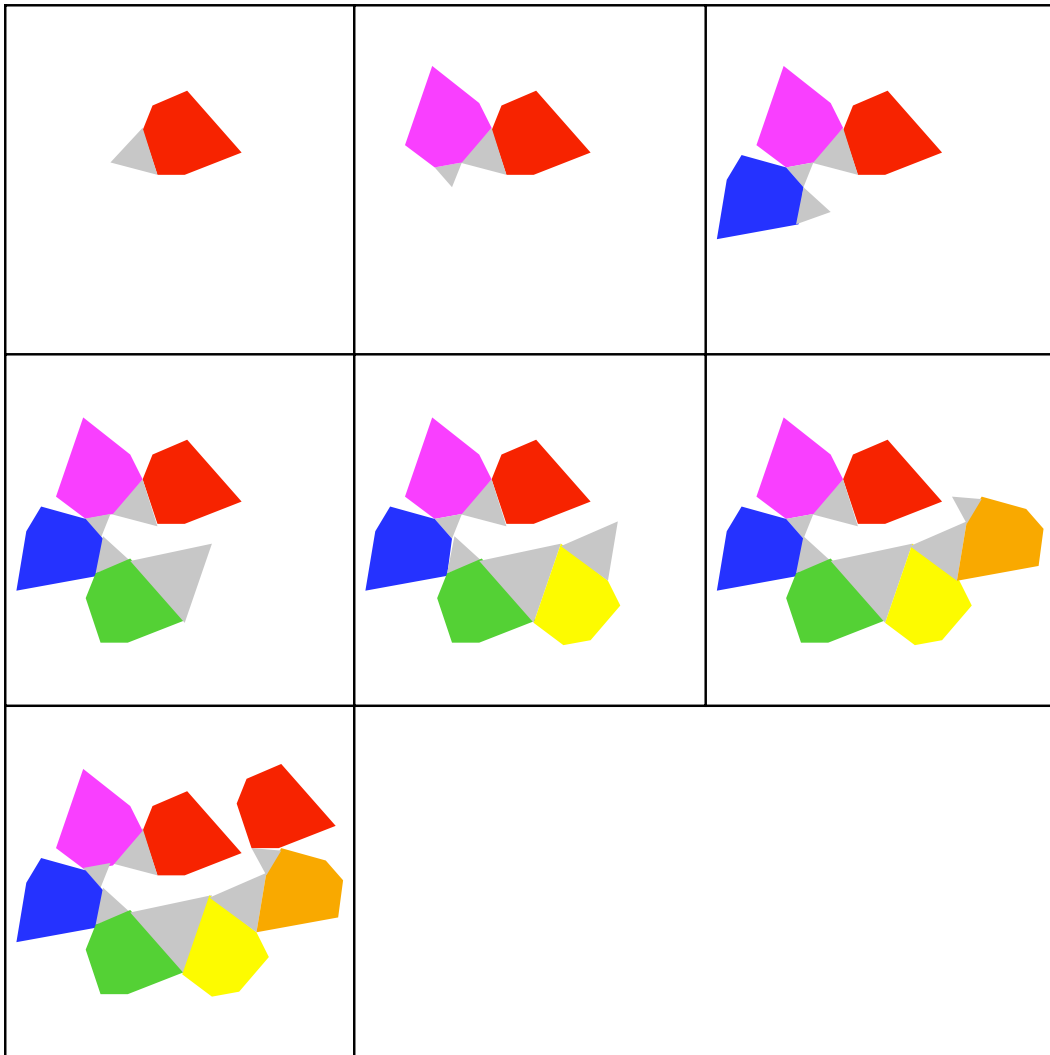

Viereck über Ecken spiegeln

Translationsfigur 99.3

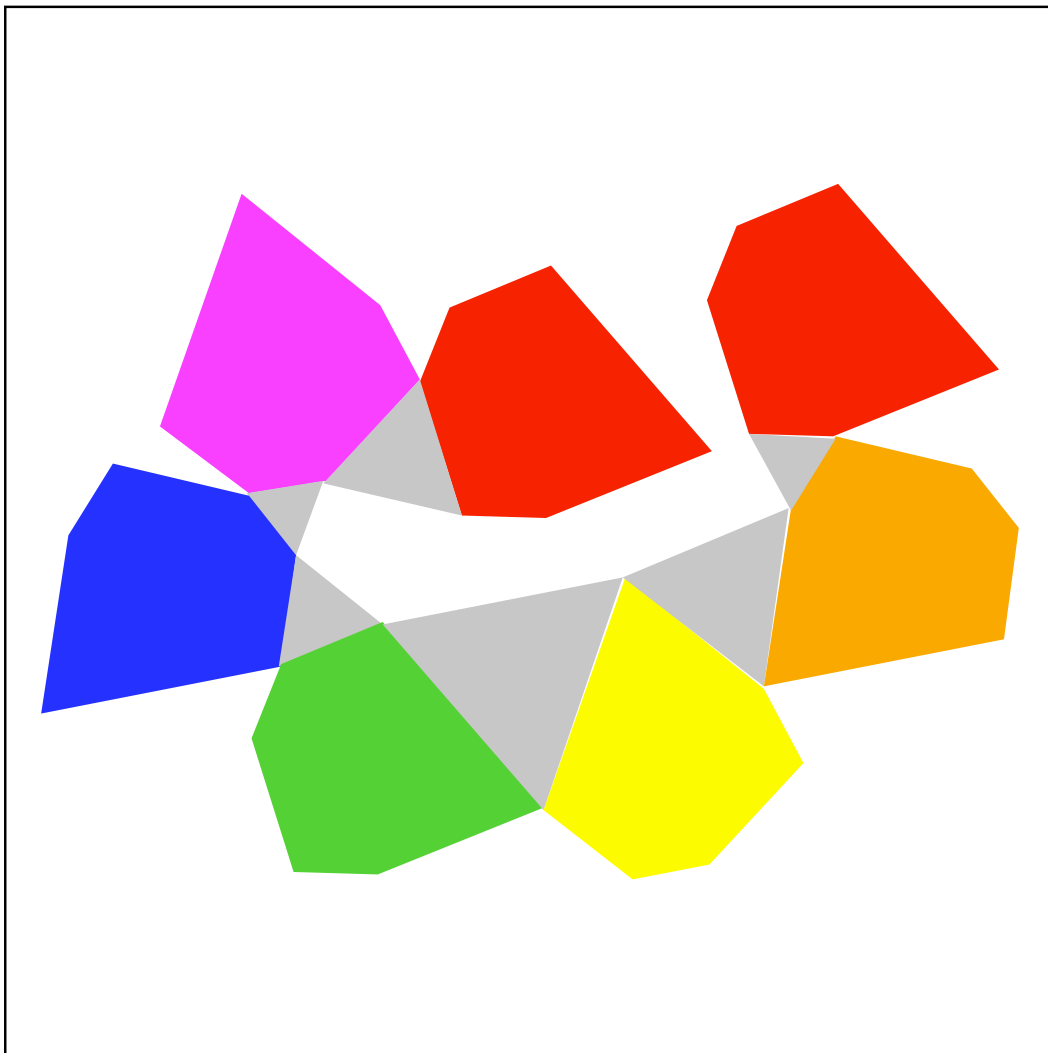

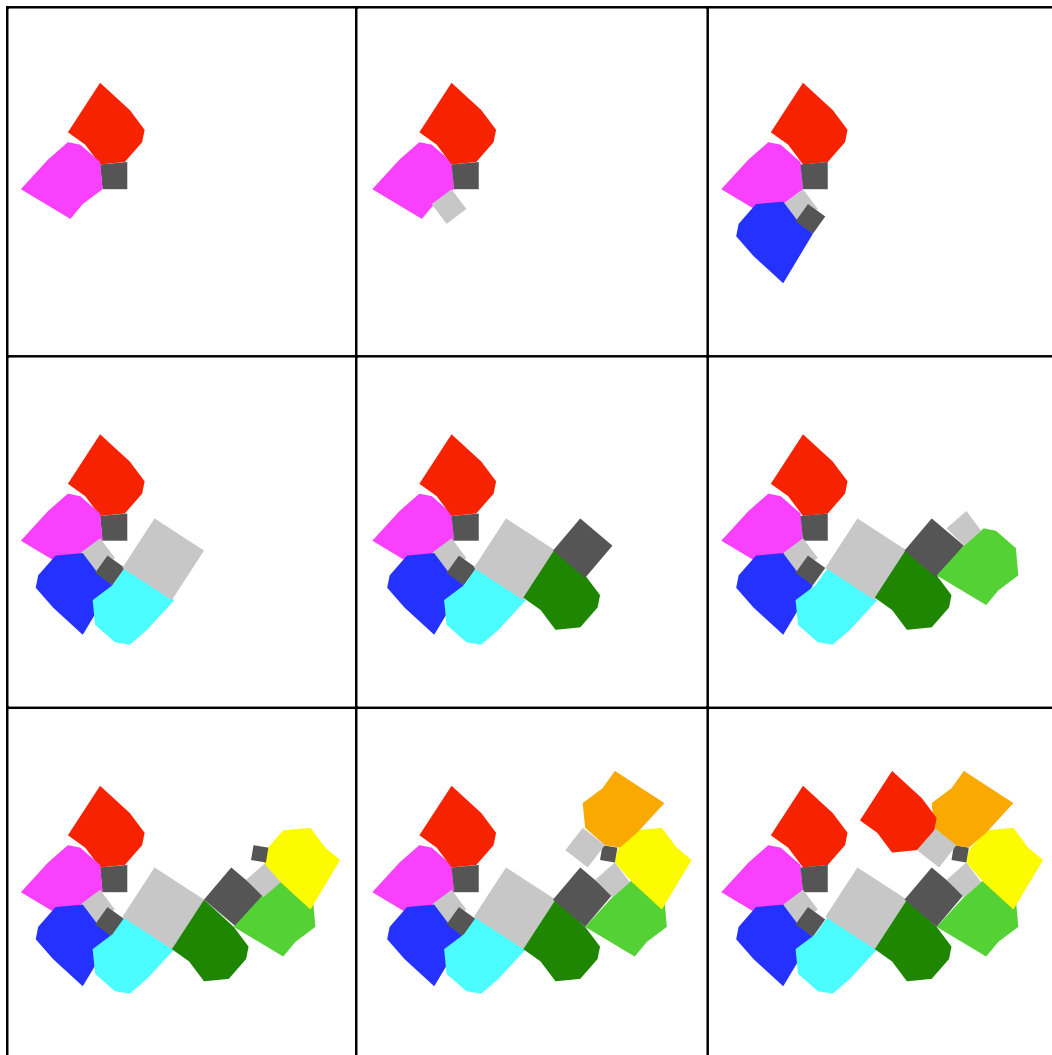

Translationsfigur 99.4

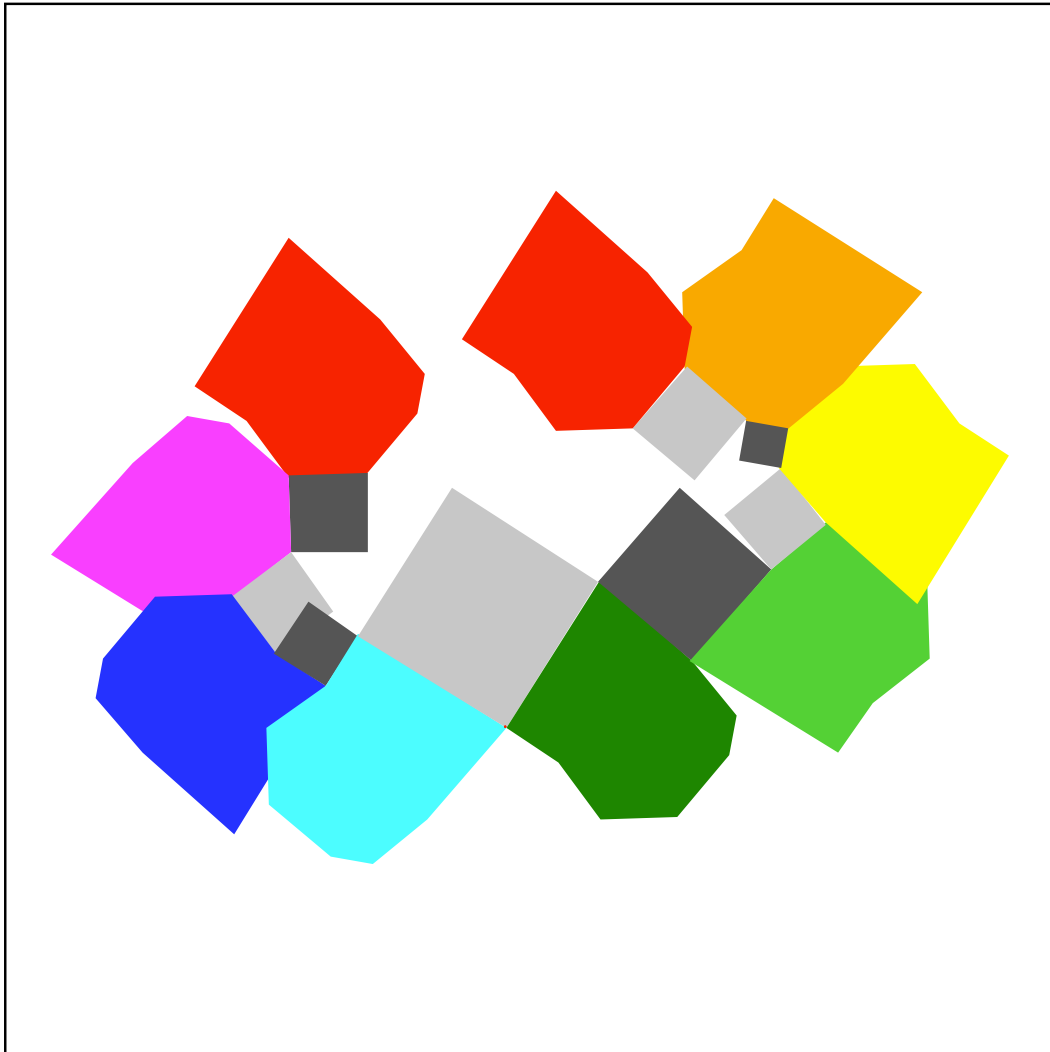

Beliebiges Sechseck und reguläre Dreiecke

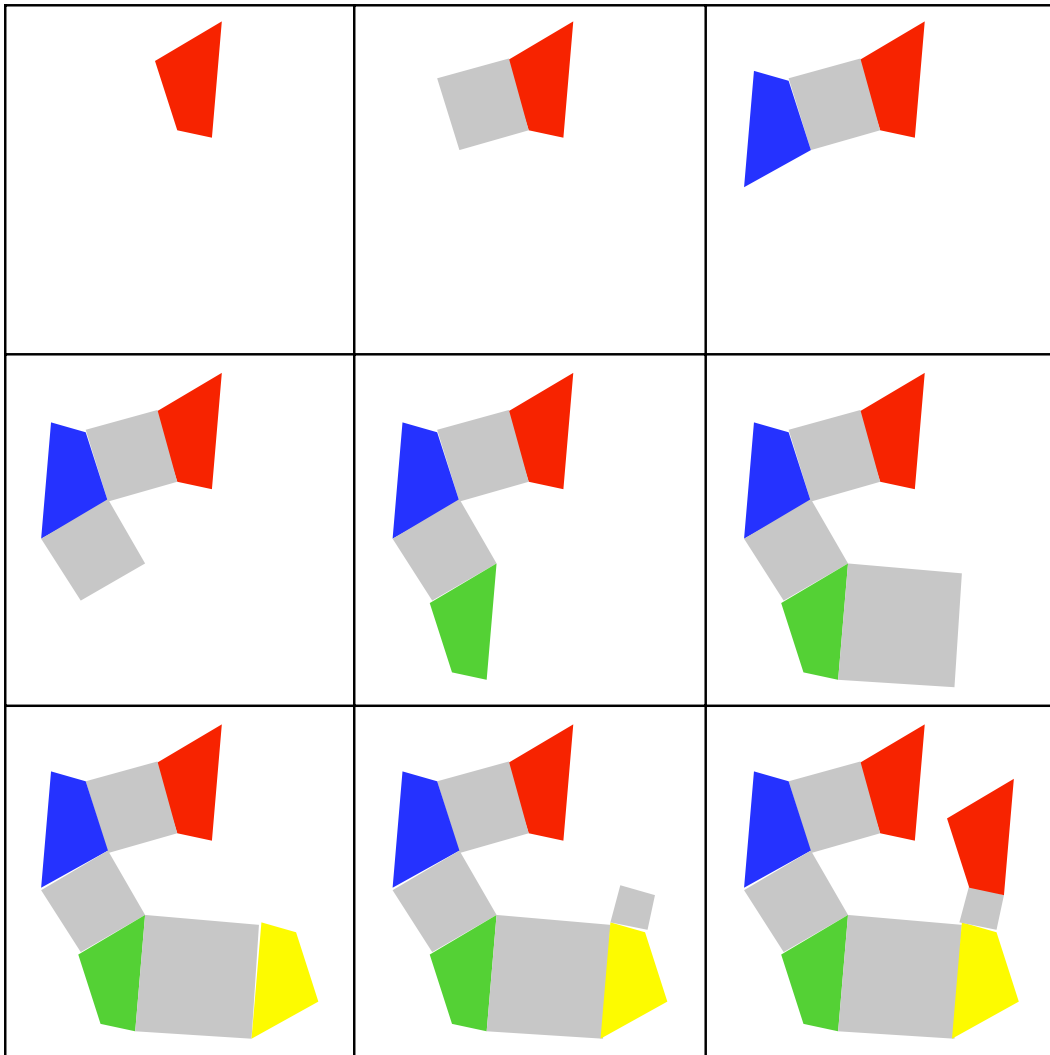

Translationsfigur 99.5

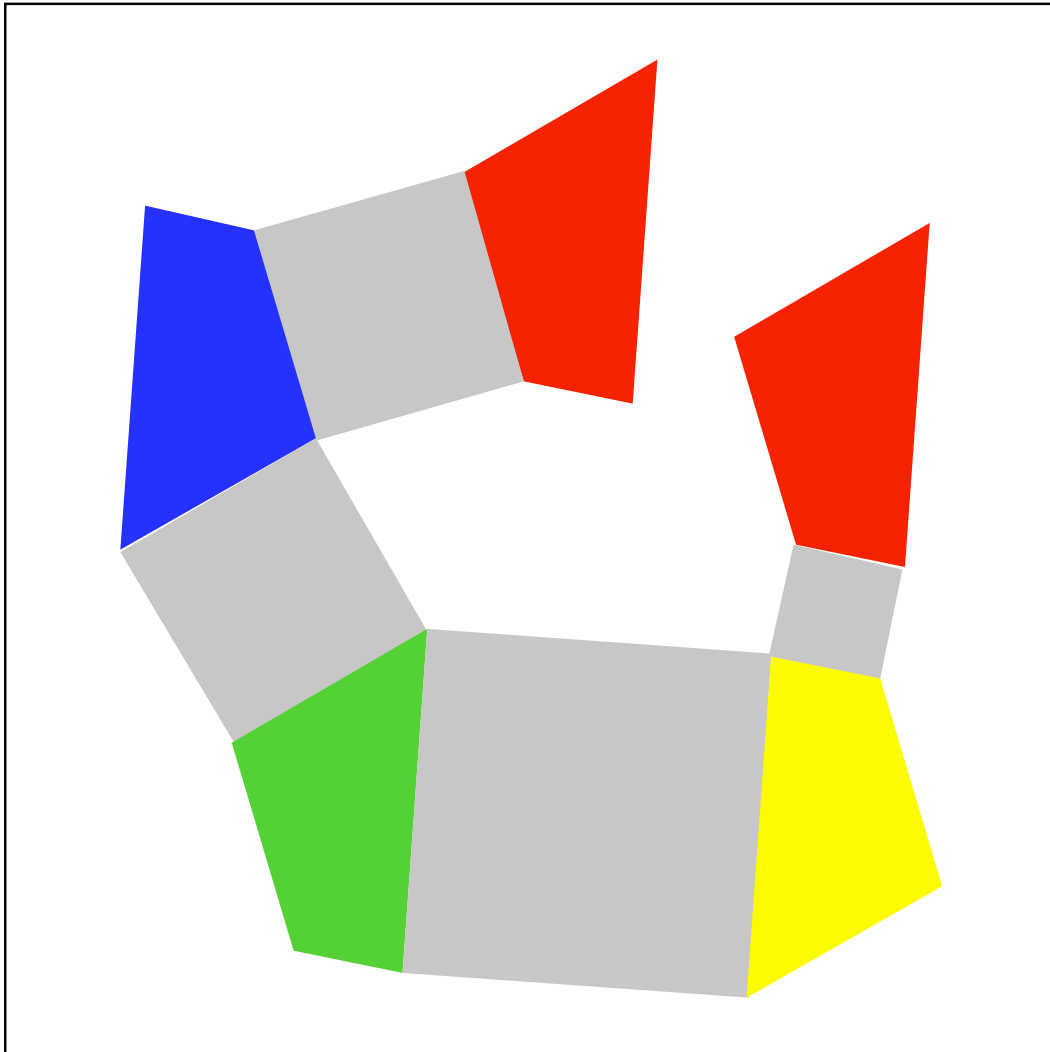

Achtecke und Quadrate

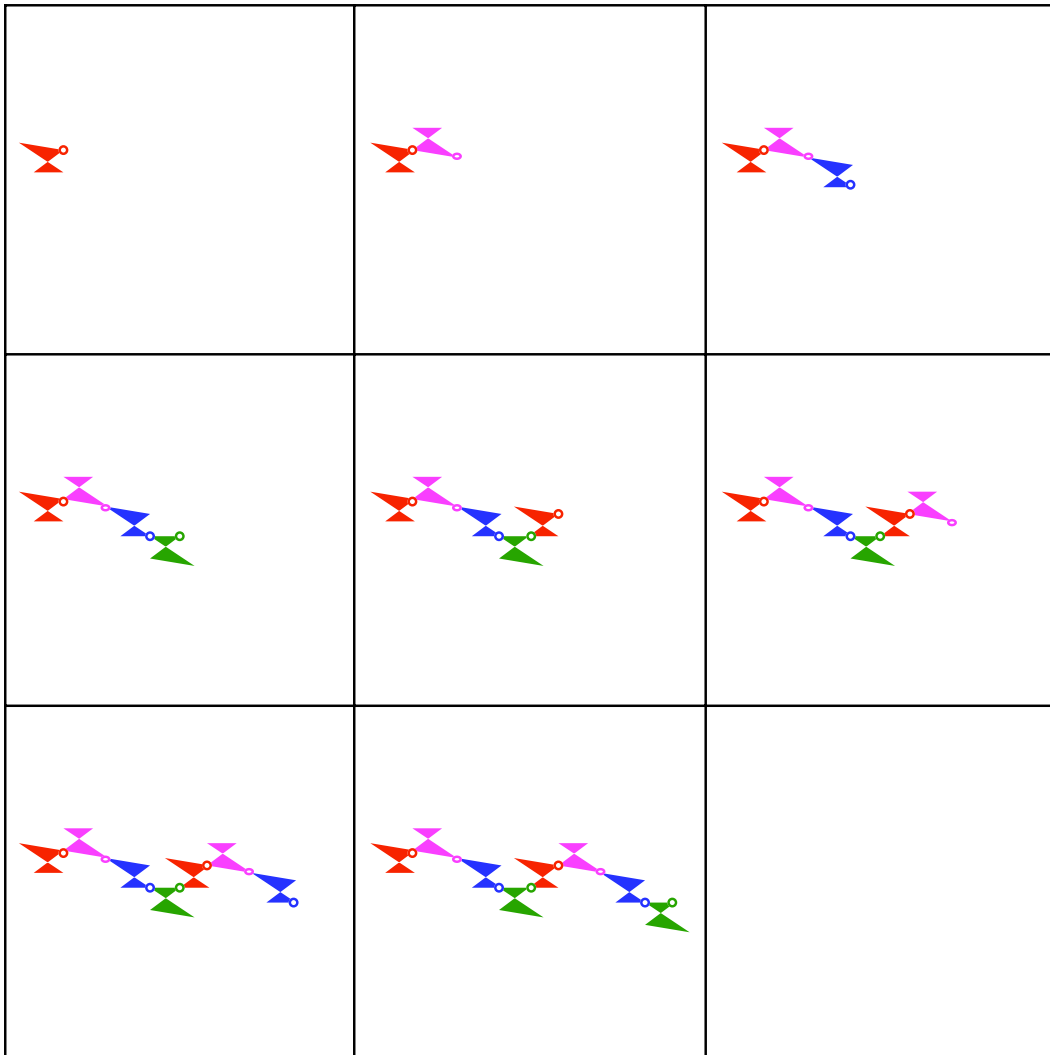

Translationsfigur 99.6

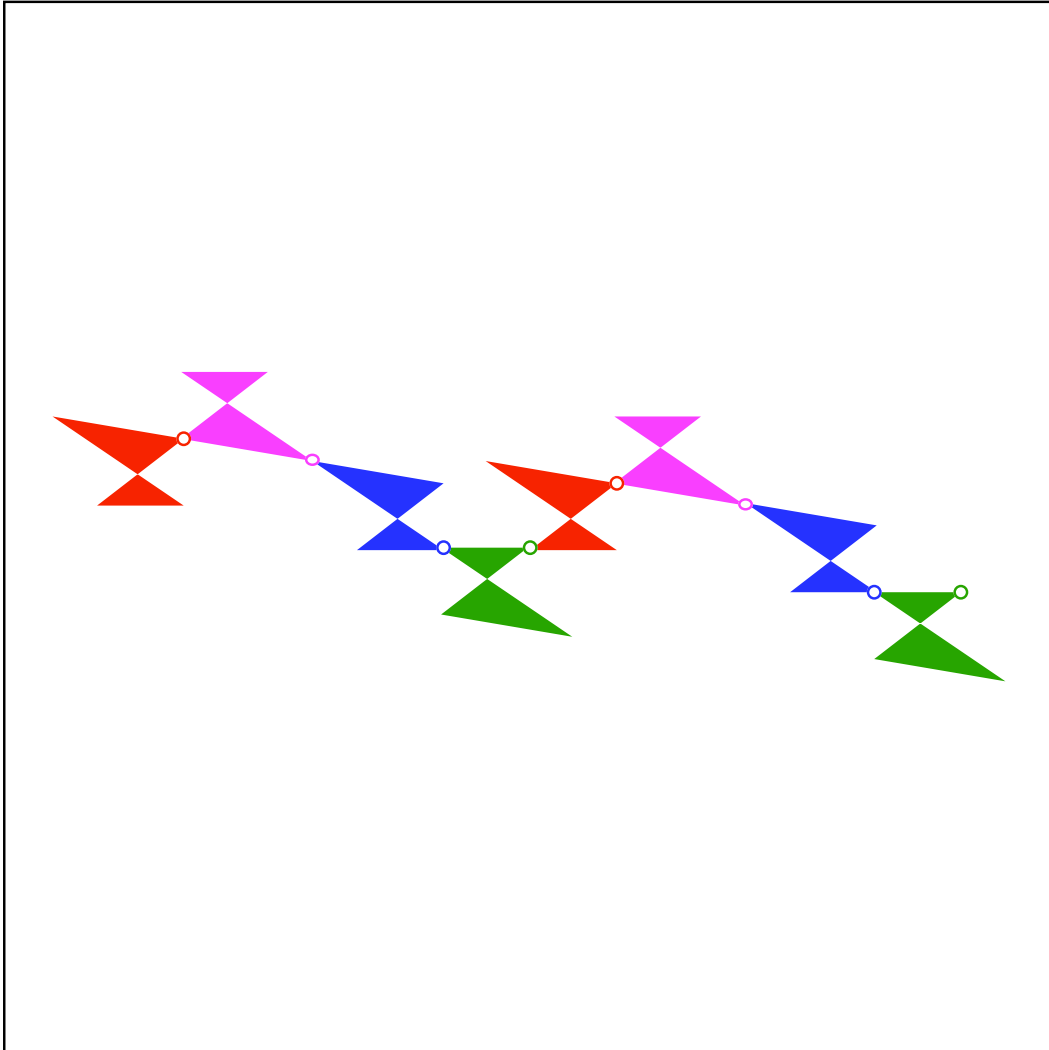

Quadrate und kongruente Vierecke

Translationsfigur 99.7
